

## Practice

A body such as my body  
tosses back its antlers &  
spins them like a propeller.

Skull finally works,  
iris, planet, sun,  
I won't spend a dime!

Great Faith  
Great Doubt  
Great Effort

O the universe has a wit  
easily tasted in green leaves  
boiled with water.

What's the bloodstream?  
but a river of huge loves &  
thunderous flowers of combustion!

Be sure to practice everyday.
